

The “Leadership Cube”:

This cube shows the six key perspectives for today’s leaders:

An **authentic leader** builds a solid basis for a great leadership culture (bottom of the cube). With the help of a strong **team** behind him and a defined **strategy** in front, he aims to reach a **clear vision** (with stand above all – top of the cube). On his way he needs an optimized organisational **structure & processes** and certain **key performance indicators** to measure that the team is moving to achieving the vision.
